

TQM SPOTLIGHT

A JOURNEY OF REFLECTION AND RENEWAL

In the pursuit of excellence, every milestone begins with honest reflection. As JSW Steel Vijayanagar advances toward the prestigious Deming Grand Award 2027, a significant step was completed through the successful **Internal Diagnosis** for Gap Assessment.

Aligned with the upcoming JUSE Diagnosis, this initiative revisited our Total Quality Management (TQM) practices against the benchmarks established during the 2018 Deming journey.

Across all departments, the exercise enabled us to clearly understand our current position and identify the gaps that need to be addressed to reach the desired level of excellence.

The assessment provided valuable insights into our strengths while highlighting areas that require focused improvement. It has helped us define a structured roadmap to strengthen our systems, refine processes, and deepen TQM deployment across the organization. The Apex Council Members (**Mr. Prabhat Kumar Ghorui, Mr. Srinivas Rao, Mr. Rama P V N P Rao, Mr. Amit Agarwal, Mr. Sanjay Sharma, Mr. Sekhar V R, Mr. Mayuresh Bapat, Mr. Devashish Mishra, Mr. Sanjay Kumar Agarwal, Mr. Sushil Nowal**) examined the departments. In addition the Chairman and Alt. Chairman of Divisional Councils (**Mr. Veeresh Bellati, Mr. Vasa S N Murthy, Mr. M M Reddy, Mr. Suraj Yekkar, Mr. Manoj Kumar Dash, Mr. Mahantesh Dalavai, Mr. Abhijit Manna, Mr. K Bhoopalreddy, Mr. Priy Vrat Shringi, Mr. Vishnu D, Mr. Govinda N Raju, Mr. Shakeel Ahmed, Mr. Manish Kumar, Mr. Sanjay Kumar Agarwal, Mr. Harish Nair**) and TQM experts from various departments (**Mr. J Vidya Shanker, Mr. Sreenivasa Reddy, Mr. Dinesh Kumar Rout, Mr. L K Reddy**)—whose insights and expertise helped us evaluate ourselves objectively and inspired us to move forward with renewed commitment.

We extend our sincere gratitude to all the examiners.

As we prepare for the external diagnosis in April 2026, this journey stands as a strong foundation for what lies ahead.

TPL QUIZ 2026

RIISING THROUGH THE RANKS : TQM QUIZ LEVEL 1

The spirit of learning and healthy competition came alive as the Level 1 round of the TQM Quiz was successfully conducted on March 05, 06, and 07. Bringing together bright minds from across the organization, the event witnessed an enthusiastic participation of 35 teams representing the 7 TQM Divisional Councils.

Over the course of three engaging days, teams demonstrated their knowledge, quick thinking, and strong grasp of Total Quality Management principles. The competition was intense, with each team striving to outperform the other and earn a place in the next stage.

From this impressive pool of participants, one outstanding team from each Divisional Council emerged victorious, making it a total of 7 teams advancing to the next round. These teams now carry the pride and responsibility of representing their respective TQM Divisional Councils on a bigger stage.

This achievement is a testament to their dedication, teamwork, and competitive spirit. Their performance not only reflects their individual capabilities but also highlights the growing culture of TQM excellence across the organization.

As we move forward, the competition becomes even more exciting. With higher stakes, tougher challenges, and greater expectations, the upcoming rounds promise to bring out the very best in each team.

LEAN SIX SIGMA PROJECT EXCELLENCE

**Mr. Satyawan, Asst. Manager (HSM-2)**

Successfully completed the Lean Six Sigma Green Belt project “**Automation of coil weight update after salvage in SPTS to Reduce Human Error (2 to 0.2%)**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.0345 crore**.

**Mr. Abhishek Pradhan, Asst. Manager (PDQC)**

Successfully completed the Lean Six Sigma Black Belt project “**Reduction of Surface Tiny-Scratches in GI Appliances & Whitegoods Applications (235 MT to Zero)**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.17 crore**.

**Mr. Atul Soni, Asst. Manager (PDQC)**

Successfully completed the Lean Six Sigma Green Belt project “**Reducing Welding Porosity Complaints in 65C1000P_C5L NOFP Grade (3 to zero per month)**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.44 crore**.

**Ms. Anita Dunga, Sr. Manager (PDQC)**

Successfully completed the successful completion of the Lean Six Sigma Green Belt project “**Reduction of Rejection and Improvement in Production Capacity of HC72A Wire Rod for Enhanced Business Realization (241 to 500 tonnes/month)**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.12 crore**.

**Mr. CH Raju, Deputy Manager (PDQC)**

Successfully completed the Lean Six Sigma Green Belt project “**Cost Optimization through Ferro-Mn alloy reduction in FE500D (TMT) grade (reduced from 0.75-0.85 to 0.65-0.7% Mn)**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.42 crore**.

LEAN SIX SIGMA PROJECT EXCELLENCE

**Mr. Jayakar Raju Potharla, Sr. Manager (PDQC)**

Successfully completed the Lean Six Sigma Black Belt project **“Reduction of Cracking concerns in GA-IF Grades used in Automotive applications (35 to 3 numbers)”**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.16 crore.**

**Mr. S Karthik Sekar, Deputy Manager (PDQC)**

Successfully completed the Lean Six Sigma Green Belt project **“Reduction of ridge defects post cold rolling from 24% to zero “**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.27 crore.**

**Mr. Shivakumar Lamani, Deputy Manager (BF-5)**

Successfully completed the Lean Six Sigma Green Belt project **“Reducing nitrogen consumption at BLT area from 1234 to 1068 Nm3/Hr”**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.26 crore.**

**Mr. Gannavarapu Krishna Teja, Deputy Manager (PDQC)**

Successfully completed the Lean Six Sigma Black Belt project **“Elimination of Edge Burst defect in S700 MC grade (55 % to 0%)”**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.0485 crore.**

**Mr. Vinothkumar G, AGM (PDQC)**

Successfully completed the Lean Six Sigma Green Belt project **“Reduction of NCO% in Zn-Mg-Al Coated Steel from 5.75 % to 4.17% “**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.3 crore.**

**Mr. Subhnit Kumar Roy, Deputy Manager (PDQC)**

Successfully completed the successful completion of the Lean Six Sigma Black Belt project **“Lean Microalloy Design for S500MC: NPD for Construction Segment (5080 to 3292 Rs/ton)”**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹1.06 crore.**

LEAN SIX SIGMA PROJECT EXCELLENCE

**Mr. Amit Kumar Chauhan, Deputy Manager (Energy Management)**

Successfully completed the Lean Six Sigma Green Belt project **"Reduction in Power Consumption by 29.35% of 5MT Boosters Recirculation Motors (144.85 to 100.23 kWh)"**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.1227 crore**.

**Mr. Anand Prasad, AGM (PDQC)**

Successfully completed the Lean Six Sigma Black Belt project **"Increasing the productivity of 400-100-TF (CTF542) grade at CAL (.0725 to .0948 T/hr/mm)"**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.16 crore**.

**Mr. Ummadi Raviteja, Deputy Manager (PDQC)**

Successfully completed the Lean Six Sigma Green Belt project **"Enhancing Electrical Steel Production capability: Developing Alternative Methods to further reduce the Watt Losses without increasing Silicon content (2.79 to 2.7 W/kg)"**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹1.68 crore**.

**Mr. Suresh Vonna, GM (BF-5)**

Successfully completed the Lean Six Sigma Black Belt project **"Reduction of tuyere burning through optimization of coal off centering at BF-5 (7 per months to Zero)"**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.9 crore**.

**Mr. Shishupal K B, AGM (Energy Management)**

Successfully completed the Lean Six Sigma Black Belt project **"Reduction of Power Consumption from 684.63 MW per Month to 200.49 MW in 10MT Swam Boosters."**,
By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹2.77 crore**

**Mr. Srimon Narayanasamy P, Dy. Manager (PDQC)**

Successfully completed Lean Six Sigma Green Belt project **"Reduction of Non Confirming Order(NCO) due to sliver C:HSM defect in Galvanealed product from HSM-2 coils at CRM-2 (0.36% to 0.17%)." ,**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.47 crore**

LEAN SIX SIGMA PROJECT EXCELLENCE

**Mr. Ramjan Ali, Asst. Manager (SMS-3)**

Successfully completed the Lean Six Sigma Green Belt project “**Enhancing Caster Reliability by Reducing Breakout (14 to Zero times per year) and Cooling Related Mechanical Delays in Water Distribution Systems**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.3 crore**.

**Mr. Vigneshwaran S, Asst. Manager (Coke-5)**

Successfully completed the Lean Six Sigma Green Belt project “**Reduction of Caustic consumption In the Ammonia stripper (9.08% reduction, 0.001253348 to 0.001139538 ton/M3)**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.31 crore**.

**Mr. Gurupadappa G, Manager (Energy Management)**

Successfully completed the Lean Six Sigma Green Belt project “**Reduction of Power Consumption by 42.7% in Cooling Systems of Aerzen Boosters (90kWh to 51.6kWh)**”,

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.11 crore**

**Mr. Rahul K R , Asst. Manager (PDQC)**

Successfully completed the Lean Six Sigma Green Belt project “**Reduction of Mechanical Property–Related NCO in CRCA Corten Grade (6.24% to 0 %)**”,

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.246 crore**.

**Mr. Rajesh Kumar Goyal , VP (PDQC)**

Successfully completed the Lean Six Sigma Black Belt project “**Reduction of UT Defect Rejection in Plates (9.21% to 3.28%)**”,

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹2.7 crore**

**Mr. Anant Tathod Tejrao, DGM (CRM-1)**

Successfully completed the Lean Six Sigma Black Belt project “**Reduction of specific steam consumption at CRM-1 (77.5 to 67.5 kg/ton)**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹1.57 crore**.

LEAN SIX SIGMA PROJECT EXCELLENCE

**Mr. Narendra Podaralla, Deputy Manager (Corex-1,2)**

Successfully completed the Lean Six Sigma Black Belt project **"Improving the availability of Slag Granulation Plant at COREX-2 (363000 to 376200 tons/month)"**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.15 crore.**

**Mr. M Shafiulla Baig, Sr. Manager (Blast Furnace-3,4)**

Successfully completed the Lean Six Sigma Black Belt project **"Increasing the slag granulation Plant Availability from 88 % to 95% at Blast Furnace-4"**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.303 crore.**

**Mr. Sandeep B R, Deputy Manager (SP-2,3,4)**

Successfully completed the Lean Six Sigma Black Belt project **"Increase in steam generation in WHRS SP-3 (16.96 to 21.93 TPH)"**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹2.31 crore.**

**Mr. Pari Ranganathan, Manager (PDQC)**

Successfully completed the Lean Six Sigma Black Belt project **"Reduction in %NCO due to Low UTS in 6000_12 (JVHTR13BJS) Grade (20 to 1.5%)"**.

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.29 crore.**

**Mr. Shivam Anand, Asst. Manager (CRM-1)**

Successfully completed the Lean Six Sigma Green Belt project **"Increasing the Production of finished Good at APL-1 (1787 to 2317 tons per month)"**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.14 crore.**

**Mr. Shrikantha Pai, AVP (PDQC)**

Successfully completed the Lean Six Sigma Black Belt project **"Reduction in Scale occurrences in GA IF Grade material (163 to zero MT)"**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.29 crore.**

LEAN SIX SIGMA PROJECT EXCELLENCE

**Mr. Indrajeet Singh, Manager (CRM-1)**

Successfully completed the Lean Six Sigma Black Belt project **"Improving Material Yield to drive Process Cost Reduction in CRMSC (95.85 to 96%) "**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹1.5 crore**.

**Mr. Durgesh Deshkar, AGM (CRM-1)**

Successfully completed the Lean Six Sigma Black Belt project **"To reduce the scale impression diversion in coated product (0.19 to 0.05%)"**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.32 crore**.

**Mr. Muralidhara BK, Deputy Manager(Corex-1,2)**

Successfully completed the Lean Six Sigma Green Belt project **"Optimization of nitrogen to dry coal bunkers at corex-1 (4.89 to 4.02 Nm3/thm)"**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.24 crore**.

**Mr. Kapil Agrawal , Sr. Manager (Energy Management)**

Successfully completed the Lean Six Sigma Black Belt project **"Improvement of Coke oven-5 Gas Holder seal oil Viscosity (48.17 to 86.32 cSt)"**,

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹2.4 crore**.

**Ms. Sahithya Nallagatla, Asst. Manager (CRM-2)**

Successfully completed the Lean Six Sigma Green Belt project **"Enhancing Coil Width Accuracy Through Automated Monitoring (99 to 99.8%) "**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.59 crore**

**Mr. Aakash Paul B , Asst. Manager (Energy Management)**

Successfully completed the Lean Six Sigma Green Belt project **"Increasing reliability of Gas line in 12MT Iron making by reducing disruptions (Quality of Gas line from 92.6% to 96%)"**.

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.58 crore**

LEAN SIX SIGMA PROJECT EXCELLENCE

**Mr. Deepak Khandelwal, Manager (PDQC)**

Successfully completed the Lean Six Sigma Black Belt project **“Improvement in yield strength of CAU220/CAX220 grade. (Reduction in mean value by 10%). ”**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.322 crore.**

**Mr. Krishna Reddy Yanna, Asst. Manager (HSM-2)**

Successfully completed the Lean Six Sigma Green Belt project **“Reduction of Edge cut 0.28% to 0.15%”**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.13 crore.**

**Mr. Varun M, Manager (PDQC)**

Successfully completed the Lean Six Sigma Black Belt project **“improvement of Bend Test Performance in direct drawn Tire Bead Wire (7 to 1%)”.**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.14 crore.**

**Ms. Chakka Sai Sri, Deputy Manager (PDQC)**

Successfully completed the Lean Six Sigma Green Belt project **“Reduction of System related Complaints in coated by enhancing the validations (12 numbers to zero)”**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.104 crore.**

**Mr. Shiva kumara J, Asst. Manager (Corex-1,2)**

Successfully completed the Lean Six Sigma Black Belt project **“Improving 10% Pellet Fines Separation to Optimize Process Parameters in Corex 2(from 5% to 10% fines separation)”**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.27 crore.**

**Ms. Singuru Devi Priya , Asst. Manager (PDQC)**

Successfully completed the Lean Six Sigma Green Belt project **“Design Based Cost Reduction in Hot rolled E350 Grade (2154 to 1940 Rs/TCS)”**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.37 crore**

LEAN SIX SIGMA PROJECT EXCELLENCE

Mr. Trupti Ranjan Pattanaik, Asst. Manager (PDQC)

Successfully completed the Lean Six Sigma Green Belt project “**Mechanical Property Stabilization to reduce rejection due to inconsistency at M&M (Rejection Reduced from 135 MT to 0)**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.46 crore.**

**Ms. Garima Verma, Deputy Manager (PDQC)**

Successfully completed the Lean Six Sigma Green Belt project “**Reduction in NCO% of JVHC542N0S(HSLA Grade) due to mechanical property deviations (0.63 to 0.11%)**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.158 crore.**

**Mr. Abhishek Mycherla, Deputy Manager (PDQC)**

Successfully completed the Lean Six Sigma Green Belt project “**Improvement of process capability in yield strength (& Reduction of ferro-alloy cost in Grade BH180 (GA) in CGL 1 (1500 to 1000 rs/ton)**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.75 crore.**

Mr. Anjireddy Chandragiri, Asst. Manager (PDQC)

Successfully completed the Lean Six Sigma Green Belt project “**Cost optimization through Alloy Design of CRCA Grades (1311 to 1250 Rs/tls)**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.46 crore.**

Ms. Challuri Sandeepika, Asst. Manager (PDQC)

Successfully completed the Lean Six Sigma Green Belt project “**Ferro alloy optimization through Alloy Design of LC Grades (reducing 72 Rs/TCS)**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.25 crore.**

Mr. Ravikant Parihar, AGM (Blast Furnace-3,4)

Successfully completed the Lean Six Sigma Black Belt project “**Decreasing permeability index at BF4 (2.76 to 2.7) “**

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.43 crore.**

Mr. Smruti Ranjan Pattanayak, Dy. Manager (PDQC)

Successfully completed the Lean Six Sigma Green Belt project “**Reducing loose scale formation in DIN17100 QST37.2 (JVHDC03A00) Grade (diversion from 29.1 to 5.9%)**”

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of **₹0.11 crore.**

LEAN SIX SIGMA PROJECT EXCELLENCE

Mr. Bubu Pradhan, Asst. Manager (PDQC)

Successfully completed the Lean Six Sigma Green Belt project "Improvement of Mechanical property & CAL productivity in 590R GA grade processed at CGL1 (2% to zero)"

By leveraging a strong data-driven approach and effective cross-functional collaboration, the team implemented focused improvements, resulting in an impressive annual savings of ₹0.15 crore.

MISSION KAYAKALP – HANDOVER CEREMONY

Spotlight: Mission Kayakalp – Handover Ceremony

The Mission Kayakalp Handover Ceremony was successfully conducted, marking a significant step towards strengthening ownership and accountability across departments. As part of this initiative, the central team formally handed over the responsibility to seven department leaders under the theme "My Area, My Responsibility."

During the ceremony, the department leaders accepted the responsibility of maintaining and improving their respective areas in alignment with the **principles of 5S, workplace discipline, and visual management**. This handover signifies a transition from centralized coordination to department-led ownership, ensuring that improvements are sustained at the operational level.

The event highlighted the importance of collective participation in maintaining housekeeping standards, spillage control, waste management, infrastructure improvement, and overall workplace outlook. The ceremony was conducted successfully with enthusiastic participation and commitment from all departments.

Moving forward, the Mission Kayakalp campaign will focus on theme-based improvements, where departments will drive structured initiatives under key improvement themes such as workplace cleanliness, visual management, safety, infrastructure enhancement, and environmental sustainability. This approach will help streamline efforts, track progress effectively, and ensure continuous improvement across all operational areas.

The successful handover marks the beginning of a new phase where each department will take proactive responsibility in driving improvements and sustaining the vision of Mission Kayakalp – creating a cleaner, safer, and more organized workplace.

Glimpses & Handover Event

FROM TIE TO TRIUMPH: BRM2 & WRM2 WON QMML PHASE-2

The QMML Phase-2 assessment has been successfully completed, showcasing strong commitment and implementation of TQM practices across departments.

A remarkable highlight of this phase was the intense competition between **BRM2 & WRM2** and **CRM1**, both of which initially secured a tied top score. To determine the final winner, a re-assessment was conducted, following which **BRM2 & WRM2** emerged as the **winners of QMML Phase-2**.

The performance of BRM2 & WRM2 was commendable, with the team demonstrating excellent clarity and structure in presenting all required documents. A key highlight of their assessment was the active participation and involvement of team members at all levels, reflecting strong ownership and a deep-rooted TQM culture within the department. We also appreciate **CRM1** for their **outstanding effort and competitive performance**.

Congratulations to the winning team and appreciation to all departments for their continued efforts towards excellence in QMML implementation.

QMML : WRM-2 & BRM-2

QUIZ CHAMPIONS OF MARCH 2026

On 30th March 2026 marked another exciting chapter in our journey toward building a strong TQM culture across JSW Steel. With enthusiastic participation from teams across departments, the TQM Monthly Quiz continued to encourage learning, awareness, and the spirit of continuous improvement. We thank all for their active participation and enthusiasm. Your contribution is vital to reinforcing TQM values across the organization. Let's continue to learn, improve, and grow together as One JSW Team! Keep the Momentum Going, Your Turn to Shine!

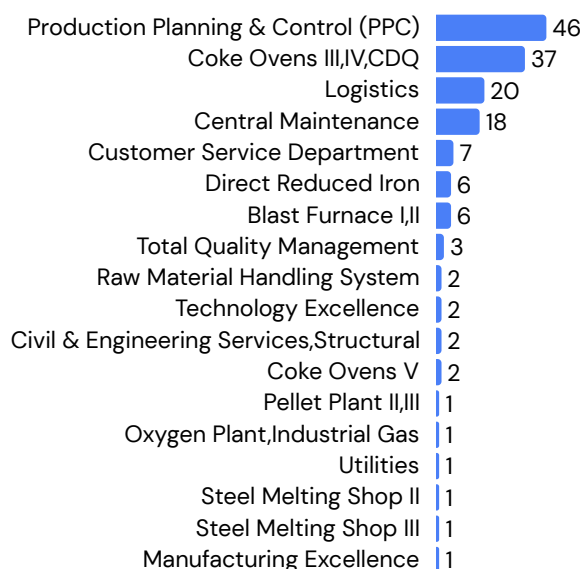

J1+ CERTIFICATION – MARCH 2026 PERFORMANCE HIGHLIGHTS

The overall participation in the J1 Examination reflects encouraging engagement across departments, showcasing a strong culture of learning and involvement.

In Production Planning & Control (PPC), a total of **46** employees completed the examination, achieving an impressive pass percentage of **90.16%**, indicating strong understanding and performance within the department.

In the Coke Oven (Units 3, 4 & CDQ), **37** employees successfully passed the examination, resulting in a pass percentage of **74%**, reflecting a good level of participation with scope for further improvement.

TOP 12 MODEL AREAS IN 5S IMPLEMENTATION & SUSTAINABILITY

Maintaining an organized, clean, and efficient workplace is a key element in achieving operational excellence. As part of our ongoing efforts to strengthen workplace standards, multiple Model Areas were identified across departments to effectively implement and sustain 5S practices.

Out of the 75 Model Area locations, 12 areas have demonstrated outstanding commitment and consistency in implementing, maintaining, and sustaining 5S standards. These areas have set a strong benchmark by ensuring systematic workplace organization, improved visual management, and disciplined adherence to 5S principles. Their efforts reflect a strong culture of ownership, teamwork, and continuous improvement within their respective departments.

The success of these model areas is the result of the dedication and leadership of the Team Leaders along with the active participation of their teams, who have consistently worked towards maintaining high workplace standards. Their focus on cleanliness, proper arrangement of materials, standardized practices, and sustained discipline has significantly contributed to creating well organized and efficient work environments.

Top 12 Model Areas and Team Leaders

CRM 1 SPM ECR – Ms. Kavyasree C H

WRM 2 Roll Shop– Mr. Suresh B

WRM 1 RGS – Mr. Dileep N

BRM 2 Roll Shop – Mr. Manu Swami

RMHS 7MT ESS 4 – Mr. Manjunatha Kappagal

Glass House Project Office – Ms. Tulika Bawankar

BRM 1 Roll Shop – Mr. Uttam Chand

Corex Lab – Mr. Paramesha

Pellet Plant 2 Store – Mr. Sunila Kumar

Fire Service Store – Mr. Santosh Konde

CRM 2 YMS Room – Mr. Maheswar Behera

CRM 2 CAL2 – Mr. Muragesh Angadi

We extend our heartfelt appreciation to all the Team Leaders and their teams for their sincere efforts and dedication in sustaining these standards. Their commitment not only enhances workplace efficiency but also sets an inspiring example for other areas to follow.

At the same time, we also acknowledge the efforts of all other Model Area teams who are continuously working towards maintaining and improving their workplaces. Every effort made towards sustaining 5S contributes to building a safer, more organized, and productive work environment.

Congratulations to all the teams for their outstanding efforts in strengthening workplace excellence through 5S.

QUIZ LEADERBOARD – TOP PERFORMERS (OCTOBER–MARCH)

Top 10 Performers – Monthly Quiz Series (October to March)

Congratulations to all the Top 10 performers for your exceptional performance in the Monthly Quiz series. Your consistent participation, sharp knowledge, and competitive spirit have earned you a well-deserved place among the best.

- Archit Kumar – PDQC
- Ajit Jain – Central Maintenance
- Vikas Sharma – CRM 1 Technology Excellence
- Alakananda Kamalapuram– Sinter Plant-5
- Dalbir Singh--Security
- Nithyasri A--CMD
- Archana H - Sinter Plant 3
- Kapil Agarwal--EMD
- Abhishek Kumar Sharma--Industrial Gases
- Avinash Challa--Sinter Plant 5

A special and proud recognition to our Top 3 Winners:

Archit Kumar (PDQC), Ajit Jain (Central Maintenance), and Vikas Sharma (CRM 1 – Technology Excellence) for securing the top three positions. Your outstanding performance and consistency throughout the series set a benchmark of excellence.

We also extend our sincere appreciation to the remaining achievers in the Top 10, whose efforts and dedication have been truly commendable. Your performance reflects a strong commitment to learning and continuous improvement.

This leaderboard stands as a testament to the enthusiasm and competitive excellence demonstrated across teams. Once again, congratulations to all the achievers for making it to the Top 10—a remarkable accomplishment worth celebrating.
